

FUELIGHT™ FL-5000 SERIES CASH/CREDIT ALTERNATOR DISPLAY

PRODUCT DESCRIPTION

Daktronics Cash/Credit LED display is capable of showing multiple states of fuel prices that depend on the payment method, such as "CASH," "CREDIT," or "DEBIT." The displays are highly visible, single-color, easy to install, and simple to control. They pair with FL-5000 petroleum displays.

TECHNICAL SPECIFICATIONS

Contrast Enhancement:

Non-reflective black louvers and module face grooves disperse light

Color Capability:

One color: red, amber, green, white*, or blue*

Optimal Viewing Angle:

100 degrees horizontal x 40 degrees vertical

Service Access:

Front access only

Power:

120 VAC single phase

Display Dimming:

64 levels (automatic or manual control)

Message Capability:

Keyfob control allows message selection of up to 4 pre-programmed messages from the list below. In-store controller allows selection from list as well as user programmable messages.

Fully Sealed:

360 degree water-tight electronics

Operating Temperature:

-40°F to 120°F with 99% RH non-condensing

Compliance Information:

UL and cUL Recognized

*The lifespan of white and blue LEDs, defined by their ability to maintain brightness, is shorter than that of red, green and amber LEDs.

FORMAT OPTIONS

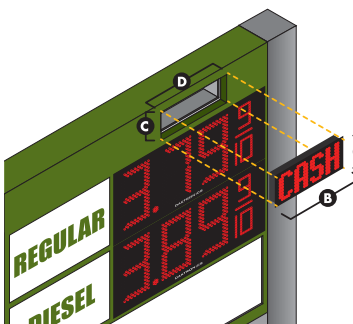

FL-5000-6-X-DI-1x1

FL-5000-6-X-DI-1x2

FL-5000-12-X-DI-2x2

The cash/credit displays drop into the cutout area in the sign, while still providing overlap space for attachment through the flange.
